-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 3/29/04.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Response to Amendment

The amendment filed on March 29, 2004 has been considered and an action on the merits follows.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 11, 12, 15-18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Amended claim 11, line 7-8 introduces new matter. The added material which is not supported by the original disclosure is as follows: "connection members operatively connecting between the press frame and the respective slide the at least one first knee link element and the at least one second knee link element".

Applicant is required to cancel the new matter in the reply to this Office Action.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3725

Claims 7, 11, 12, and 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 7, the claim is depended upon cancelled claim 3. Therefore, the claim is being treated as a cancelled claim.

Regarding claim 11, 12, 15-18, the claims are drafted in a narrative and confusing syntax which would hinder one skilled in the art in determining when infringement might occur. For example:

regarding claim 11, lines 5-6, the amended claim fails to overcome this rejections as set forth in the previous Office action. It is not clear what structural inter-relationship exists between the second knee link and other elements of the press. Examiner suggests that the claim should recite as follows --- at least one second knee link element operatively connected [with] between the press frame and the respective slide ---;

regarding claim 11, lines 7-12, the claim is vague and confusing. It is unclear which element (i.e. the slide, the first knee link, or the second knee link) is being connected to the press frame with the connection members;

regarding claim 11, lines 10-11, there is no antecedent basis for “the connection elements” in the claim. Additionally, it is unclear what structural inter-relationship exists between “the connection elements” and other elements of the press.

regarding claim 11, last paragraph, it is unclear how the connection element from the group of connection elements as claimed in the first paragraph, can be used to connect the links of the first and the second presses. Examiner suggests that the claim should clearly define the

Art Unit: 3725

link system of the first press and the link system of the second press, and clearly define the structural interrelationship between the link system of these presses and the single eccentric driving device.

In general, the claim is replete with indefiniteness and unclear, rendering a clear understanding difficult. All claims should be carefully reviewed for clarity and definiteness.

Note that the original claim 18 has not been disclosed or mentioned in the amendment. It is unclear whether claim 18 remains in this application or it is being cancelled. For the purpose of examination, claim 18 is being treated as a cancelled claim.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
